Amendments to Specification

Page 4, lines 10-11:

Fig. 6 is a partial, partially sectioned, top elevation plan view of a plurality of fuel cells of Fig. 5.

Page 9, lines 17-20:

In the embodiment of Figs. 5 and 6, the tube ~~55~~ 54 comprises a permeable baffle; in Figs. 7 and 8, the permeable baffle is provided by the ports 55a, or a porous media between the two manifolds 54a, 53a.
